## AUDIO PRODUCTION SERVICES

### Recording Tracks

We'll start by recording a simple guitar/piano scratch track of your song synced to a click track. From there, we'll continue to lay down the tracks for your production. You'll be able to review, request changes or approve each instrument before we to move on to the next one. Our producers will guide and help you through the entire production process.

### Mixing and Mastering

In the final step, your song will be mixed and mastered using the latest state of the art mastering hardware and software. A final version of your song will be available for your review every step of the process.

### Music Accompaniment Services

Are you interested in working with a professional musician? We have the finest musicians with the musical skills necessary to play a wide range of musical styles. Genres include blues, country, jazz, R& B and rock and roll. We are committed to providing consistent and reliable music accompaniment melodically and rhythmically.

## VIDEO PRODUCTION SERVICES

Get the results you deserve with quality video services at an affordable price. We have qualified video professionals who bring years of experience and know-how. But what really sets us apart from the rest of the industry is our attention to detail and receptiveness to the unique needs of each client.
